Task 4: Malko kote

Description

Bojinov is the symbol of Bulgarian chalgafFootballCulture. He likes *malki koteta* a lot. Your task is to draw on the console one *malko kote*. The size of this *kote* varies and you will receive that number on the input. Please please please help Bojinov to have his *malko kote* and never return back to the national football team.

Input

All input data is read from the standard input (the console)

- On the first line you will receive an integer `s`
 - The size of *malko kote*
- On the second line you will receive the character `c` with which you will have to print the *kote*

Output

The output data is printed on the standard output (the console)

- You have to print the *kote* on the console

Constraints

- `s` will always be an **even** integer between `10` and `86` inclusive
- `c` will be a character from the ASCII table
- **The input data will always be correct and there is no need to check it explicitly**
